The Center for Innovative Teaching and Learning (CITL) is sponsoring the thematic series, “Learning out of Bounds,” for 2012-2013. This thematic series explores how learning can happen in unexpected ways and in unexpected places. It highlights pedagogies that challenge delivery-based modes of instruction and predictable classroom dynamics. Through unconventional teaching approaches, students and instructors can participate in a learning environment that embraces underrepresented voices and unusual sources. Events in this series include Faculty Learning Communities, workshops, Scholarship of Teaching and Learning presentations, and Service-Learning coffee hours.

Find additional online resources
http://citl.indiana.edu/resources/teaching-resources1/classroom-climate.php
The CITL has online resources about classroom climate, including: case studies; a directory of offices that support teaching, learning, and cultural inclusivity; brochures about resolving difficult teaching situations; and video interviews with instructors about their teaching practice.
