A Scientific Symposium

Celebrating the Career and Contributions of Distinguished Professor Emeritus Milos V. Novotny

Monday, October 15, 2012
Neal Marshall Black Cultural Center
1:30-5:00 p.m.

Symposium Speakers

David P. Giedroc
Professor and Chair
1:30 pm Opening Remarks

Dennis G. Peters
Herman T. Briscoe Professor
1:35 pm Historical Remarks

Paul A. Grieco
Regents’ Professor of Chemistry, Montana State University
1:50 pm “Zwitterionic Fluorescent Dyes for Use in Proteomics: An Update”

James W. Jorgenson
W. R. Kenan, Jr. Professor of Chemistry, University of North Carolina
2:20 pm “Capillary Liquid Chromatography at Ultra-High Pressures”

Robert T. Kennedy
Hobart H. Willard Collegiate Professor of Chemistry, University of Michigan
2:50 pm “The Nanoliter Lab: Miniaturized Methods for High Throughput Chemical Analysis”

Ellen D. Ketterson/Danielle J. Whittaker
Distinguished Professor of Biology, Indiana University
Managing Director of the Beacon Center, Michigan State University
3:20 pm “Dispelling Myths about Birds and Odor: Chemical Communication in the Dark-Eyed Junco”

Milton L. Lee
H. Tracy Hall Professor of Chemistry, Brigham Young University
3:50 pm “Exploring the Limits of Resolution in Liquid Chromatography and Capillary Electrophoresis”

Pat J. Sandra
Emeritus Professor, Ghent University, Belgium
4:20 pm “Innovations in Separation Science and the Belgian Dioxin Crisis”

4:50 pm David P. Giedroc—Closing Remarks

Please join us at the reception in the lobby immediately following the symposium.
